Hey Wout, ready for your October InviteDesk update?

Smarter payments, clearer control: introducing Paydesk

We're releasing **Paydesk** next month! A brand-new way to handle paid events in InviteDesk. With the new Paydesk you will be able to **invoice your attendees** for your paid events, and you will have the option to choose from **multiple payment providers** (Mollie, Ingenico, Buckaroo, MultiSafePay). Giving you more flexibility and control over every transaction.

Paydesk will be added to the top navigation bar and will include 3 tabs: *Invoices*, *Paydesk*, and *Payment profiles*.

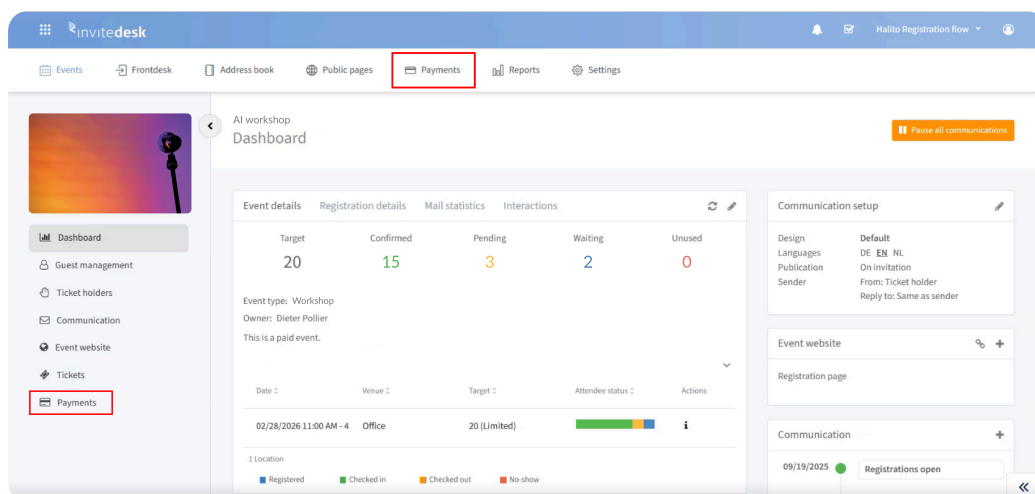

How it works (4 steps)

Step 1 – Payment profiles: Choose and activate your provider(s), now including *Mollie*, *Ingenico*, *Buckaroo*, *Stripe*, and *MultiSafePay*. Add the required credentials and you're set.

Step 2 – Paydesk setup: Define how invoices/documents are generated: internal name, currency, invoice email, document generation, and preferred payment method (*online* via provider or *offline* via bank transfer/add payment later).

Step 3 – Event creation: Select *Paid event* and set *Paydesk* as the payment provider (just like you used to pick Stripe). The remaining steps are unchanged.

Step 4 – Track & export: As registrations come in, monitor payments under *Invoices*. Download PDFs and *UBL* files (for Peppol), add references or manual payments, and customise documents.

Customer Success Webinar: Advanced Templates

Live webinar

Level up your communication with Advanced Templates

Tomorrow we'll walk through everything you can do with Advanced Templates. From using

...mentary, now that everything you can do with images, templates, GIFs or even videos as headers, to a moving banner when scrolling and adding padding for an elevated effect.

→ **Date & time:** 30/10/2025, 10am
